

## Providing solutions for an *evolving sector*

Pall-Ex offers bespoke added-value services; delivering a competitive edge for customers in the retail sector.

Retail has become an intensely competitive market.

In order to thrive, retailers must make sure their products are available to consumers in the right place at the right time, supplied with flexibility, speed and accuracy.

Where retailers adapt, logistics providers must innovate.

Pall-Ex is an award-winning provider of palletised freight distribution services, comprising many of Europe's leading hauliers. Our customers are among the most prestigious names in retail. Our specialist Retail Plus service is uniquely developed to help retailers achieve their goals, anticipating their expectations and supporting them every step of the way.

Don't just stay on track: stay ahead of the game. Be part of a winning team with Pall-Ex Retail Plus.

**With Retail Plus, we can help you save time and money by:**

- ▶ Reviewing your present in-house distribution system
- ▶ Reducing or eliminating your vehicles fleets and associated costs
- ▶ Significantly reducing your carbon footprint with our bespoke, efficient services
- ▶ Streamlining your regional and national distribution centre operations
- ▶ Improving your in-store stock room management
- ▶ Reducing your health and safety administration

## Intelligent supply chain innovation

Traditionally, when dispatching stock to stores, it made economic sense to stack as much stock onto every pallet as possible.

The reality, though, is that this method of over-supplying creates havoc at retailers' stores; leading to stockroom inefficiency and, in many cases, serious health and safety risks. Pall-Ex's Retail Plus solution allows you to manage your stock easily, delivering the stock your stores really need.

With competitive rates and a flexible range of express delivery options, your stock and operations are so much easier to manage.

## Retail Plus delivers:

- ▶ Next day and timed services
- ▶ Overnight, 24-hour services
- ▶ Delivery of freight directly to your storeroom
- ▶ Unwrapping and decanting of your products
- ▶ Removal of spent packaging and empty pallets
- ▶ Advanced, integrated IT benefits
- ▶ Instant, real-time proof of delivery
- ▶ Advanced track-and-trace visibility
- ▶ Simple, efficient European and international services
