- ▶ Slovenia
- ▶ Spain
- ▶ Sweden
- ▶ Switzerland
- ▶ Turkey
- ▶ UK

## DELIVERIES TO THE REPUBLIC OF IRELAND

The Republic of Ireland is still in the European Union. Therefore, all pallets bound for delivery within the Republic of Ireland will require additional paperwork and support to be delivered. Irish Freight will be subject to the same import and

export rules, and customs clearance surcharges, as International freight.

Pall-Ex's MyNexus system makes it easy to book an International consignment. Simply complete all relevant fields and our Customs Broker will review your information before accepting your freight and marking it as 'customs cleared'.

## SEA AND AIR OPTIONS

Our International team can also support with air and sea options, please email [connect@palllex.co.uk](mailto:connect@palllex.co.uk) or speak to your nearest member for more information.

# International *visibility and reliability*

Our one-stop logistics management solution fuels our global network, enabling the highest levels of efficient service and visibility to our customers.

As a Pall-Ex customer with an account you will have access to our cloud-based platform Nexus, with its user friendly interface, where you can view core information straight away.

Real-time interaction between all our users is seamless and provides up to the minute visibility of consignments

through any web enabled hardware.

At the heart of our pan-European network sits our International freight system - NexusConnect

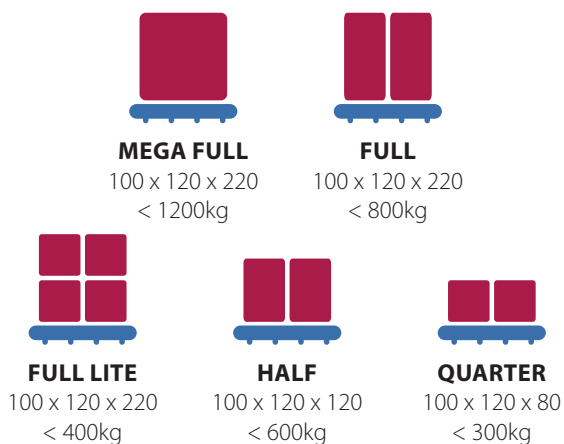

Our enhanced global freight offering supports your business as it continues to grow; so that you can securely and

efficiently transport your goods to every corner of the world at a cost-effective rate.
